Bertram Mitford : The Heath Hover Mystery before purchasing it in order to gage whether or not it would be worth my time, and all praised The Heath Hover Mystery:

0 of 0 people found the following review helpful. A Different sort of Victorian MysteryBy FantasymanWhy Bertram Mitford should have fallen out of favor to me is the real mystery here. A contemporary of Rudyard Kipling's early years, he wrote numerous adventure novels of Africa, and several set in the North West Frontier of India. His writing is far above average, his deft use of characters and plotting near flawless, yet I had never heard of him until I found some adverts for other works for sale, by the same publisher and located at the back of the book, that must have been included in the original copy that was transferred to digital. I went looking in the Kindle store, and low and behold, a multitude of his works have been rendered into Kindle format and are in the public domain and can be downloaded for free. Having read several of his stories I can only add that I recommend them very highly. This story is no different. It has an original plot, excellent characters, and the story is well told. A previous reviewer panned it because the formatting wasn't correct, well, OK, so it isn't perfect: What do you expect for free? I've read dozens of these old novels, many of them do have some formatting or punctuation issues, I've never found a decent story yet that couldn't be read and enjoyed as a result.For free on Kindle, well worth the time.0 of 0 people found the following review helpful. Wonderful story!By ClaresnyA captivating English setting, with the typical English gift of tale-telling, this story drew me in from the beginning. It may not be so to others but it seems to me that this particular age in literature, was far more evocative and interesting than present day mysteries. Women were written about almost poetically raising the standard of romance far above our modern sex cult.0 of 0 people found the following review helpful. Heath Hover MysteryBy jusmilNot sure I will finish this book. Far too much in the way of scenic description to suit me. I find I'm hasily going over some of the pages.

The Heath Hover Mystery

About the AuthorBertram Mitford (13 June 1855 - 4 October 1914) was a colonial writer, novelist, essayist and cultural critic who wrote forty-four books, most of which are set in South Africa.
